# Williamson County Landfill, Hutto, Texas: site sizing

What the gas the site now flares could power, how much land it would take, and what it could earn each year.

| 4.2 MW | 4 | 10 ac | 385k |
|---|---|---|---|
| POWER FROM THE GAS | COMPUTE MODULES | LAND NEEDED | MMBTU BOUGHT / YR |

| GAS SALE, PER YEAR | LAND LEASE, PER YEAR | TOTAL TO THE OWNER, PER YEAR |
|---|---|---|
| up to $1.15M | $10k to $20k | $10k to $1.17M |

## THE MATH

| | |
|---|---|
| Landfill gas collected, all flared (2023) | 1,812 scfm |
| Methane content (2023) | 42% |
| Energy in the gas | 46.2 MMBtu per hour |
| Power at a heat rate of 11,000 Btu/kWh | about 4.2 MW |
| Compute (power less cooling and losses, /1.2) | about 3.5 MW |
| Compute modules (about 1 MW each) | 4 |
| Gas engines (running plus one spare) | 4 at 1.6 MW |
| Land: 5 acres plus 1.2 acres per MW | about 10 acres |
| Gas bought per year (95% run time) | 385k MMBtu |
| Gas payment, up to $3.00/MMBtu | up to $1.15M |
| Land lease at $1,000 to $2,000 per acre per year | $10k to $20k |

Landfill gas: about 1,012 Btu per cubic foot of methane. Prices in US dollars; the price band is the one shown on our Site model page.

## WHAT IT WOULD LOOK LIKE

- Our own gas engines on a fenced parcel near the gas, a battery to smooth the load, and factory-built compute modules leased to an AI company.
- No grid connection and no export: all of the power is used on site.
- We build and run the site. The owner puts in no capital.
- Multi-year gas and land agreements, matched to the tenant's lease, at a fixed price.

## WORTH CHECKING

- Gas committed under the Landfill Operation Agreement, if any
- Added flow from the 13 wells drilled in late 2025
- Space for a fenced parcel near the flare
- Gas quality (siloxanes, H2S) for engines

**Source:** EPA Greenhouse Gas Reporting Program, subpart HH, reporting year 2023 (latest EPA has published), facility 1007799: https://data.epa.gov/efservice/hh_gas_collection_system_detls/FACILITY_ID/1007799/JSON (seen 2026-11-12). This is an estimate from public data, not an offer: no cost and no obligation. The real price and terms are set in the gas and land agreements after a site review.
