Harmon and Willow fields, HWY 30 Treating Facility, Payette County, Idaho: a first sizing

What this gas could power, how much land it would take, and what it could earn each year.

6.0 MW	6	12 ac	449k
POWER FROM THE GAS	COMPUTE MODULES	LAND NEEDED	MMBTU BOUGHT / YR

GAS SALE, PER YEAR	LAND LEASE, PER YEAR	TOTAL TO THE OWNER, PER YEAR
$562k to $899k	$12k to $24k	$574k to $923k

YOUR SITE IN OUR LIVE 3D MODEL — ACCRETIONCOMPUTE.COM/SITE-MODEL?SRC=GAS&FLOW=1.25

THE MATH

First block of residue gas at the plant tailgate	1.25 MMcf/d
Energy in the gas	54.0 MMBtu per hour
Power at a heat rate of 9,000 Btu/kWh	about 6.0 MW
Compute (power less cooling and losses, /1.2)	about 5.0 MW
Compute modules (about 1 MW each)	6
Gas engines (running plus one spare)	4 at 2.5 MW
Land: 5 acres plus 1.2 acres per MW	about 12 acres
Gas bought per year (95% run time)	449k MMBtu
Gas payment, $1.25 to $2.00/MMBtu	$562k to $899k
Land lease at $1,000 to $2,000 per acre per year	$12k to $24k

Processed residue gas at 1,037 Btu per cubic foot. Prices in US dollars; the gas price band is an example for a multi-year fixed price at the tailgate, set in the gas agreement.

WHAT IT WOULD LOOK LIKE

- Gas engines on a small parcel near the gas, a battery to smooth the load, and factory-built compute modules leased to an AI company.
- No grid connection and no export: all of the power is used on site.
- We build and run the site. The owner puts in no capital.
- Multi-year gas and land agreements, matched to the tenant's lease, at a fixed price.

WORTH CHECKING

- Built in blocks: about 1 to 1.5 MMcf/d first, more of the field as it comes back
- Fixed price for five years at the tailgate, a floor under pipeline prices
- Idaho DEQ permit to construct (IDAPA 58.01.01) and a Payette County conditional use permit
- Dry cooling under Idaho H0895

Source: Idaho Oil and Gas Conservation Commission filings: the fields averaged about 4 MMcf/d from July 2025 to June 2026, and four wells are back at about 6 MMcf/d (Q2 2026 Commission Report). This page sizes a first block; the rest of the field can follow. This is a first read from public data, not an offer: no cost and no obligation. The real price and terms are set in the gas and land agreements after a site review.
