Meadowfill Landfill, Bridgeport, West Virginia: a first sizing

What the gas the site now flares could power, how much land it would take, and what it could earn each year.

3.0 MW	3	9 ac	278k
POWER FROM THE GAS	COMPUTE MODULES	LAND NEEDED	MMBTU BOUGHT / YR

GAS SALE, PER YEAR	LAND LEASE, PER YEAR	TOTAL TO THE OWNER, PER YEAR
up to $208k	$9k to $17k	$9k to $226k

THE MATH

Landfill gas collected and flared (2023)	1,126 scfm
Methane content (2023)	48.8%
Energy in the gas	33.4 MMBtu per hour
Power at a heat rate of 11,000 Btu/kWh	about 3.0 MW
Compute (power less cooling and losses, /1.2)	about 2.5 MW
Compute modules (about 1 MW each)	3
Gas engines (running plus one spare)	3 at 1.6 MW
Land: 5 acres plus 1.2 acres per MW	about 9 acres
Gas bought per year (95% run time)	278k MMBtu
Gas payment, up to $0.75/MMBtu	up to $208k
Land lease at $1,000 to $2,000 per acre per year	$9k to $17k

Landfill gas: about 1,012 Btu per cubic foot of methane. Prices in US dollars; the price band is the one shown on our Site model page.

WHAT IT WOULD LOOK LIKE

- Gas engines on a small parcel near the gas, a battery to smooth the load, and factory-built compute modules leased to an AI company.
- No grid connection and no export: all of the power is used on site.
- We build and run the site. The owner puts in no capital.
- Multi-year gas and land agreements, matched to the tenant's lease, at a fixed price.

WORTH CHECKING

- Monthly flow for 2024 to 2026: 2023 is the highest year on record; 2022 (about 840 scfm, about 2.2 MW) is the downside case
- Whether the owner has any plan for the gas (RNG or power) as flow grows
- Gas quality (siloxanes, H2S, oxygen) for engines

Source: EPA Greenhouse Gas Reporting Program, Subpart HH, facility 1007667, reporting year 2023 (Envirofacts, pulled 2026-11-07): 591,987,540 scf collected (about 1,126 scfm) at 48.8% methane, all destroyed on site. Collected flow was about 547 scfm in 2020, 579 in 2021 and 840 in 2022. This is a first read from public data, not an offer: no cost and no obligation. The real price and terms are set in the gas and land agreements after a site review.
