Cherokee Wells coalbed gas wells, Township 28 South, Range 15 East, Wilson County, Kansas: site sizing

What this gas could power, how much land it would take, and what it could earn each year.

2.6 MW	3	8 ac	194k
POWER FROM THE GAS	COMPUTE MODULES	LAND NEEDED	MMBTU BOUGHT / YR

GAS SALE, PER YEAR	LAND LEASE, PER YEAR	TOTAL TO THE OWNER, PER YEAR
up to $583k	$8k to $16k	$8k to $599k

YOUR SITE IN OUR LIVE 3D MODEL — ACCRETIONCOMPUTE.COM/SITE-MODEL?SRC=GAS&FLOW=0.54

THE MATH

Gas produced in the township, 2025 average	0.54 MMcf/d
Energy in the gas	23.3 MMBtu per hour
Power at a heat rate of 9,000 Btu/kWh	about 2.6 MW
Compute (power less cooling and losses, /1.2)	about 2.2 MW
Compute modules (about 1 MW each)	3
Gas engines (running plus one spare)	3 at 2.5 MW
Land: 5 acres plus 1.2 acres per MW	about 8 acres
Gas bought per year (95% run time)	194k MMBtu
Gas payment, up to $3.00/MMBtu	up to $583k
Land lease at $1,000 to $2,000 per acre per year	$8k to $16k

The volume is shown as reported to the state, as if it were pipeline-quality gas at 1,037 Btu per cubic foot; no public gas analysis was found, so the real energy content may differ. Prices in US dollars; the price band is the one shown on our Site model page.

WHAT IT WOULD LOOK LIKE

- Our own gas engines on a fenced parcel near the gas, a battery to smooth the load, and factory-built compute modules leased to an AI company.
- No grid connection and no export: all of the power is used on site.
- We build and run the site. The owner puts in no capital.
- Multi-year gas and land agreements, matched to the tenant's lease, at a fixed price.

WORTH CHECKING

- Which compressor or meter gathers the T28S R15E leases, and gas volumes there for 12 to 24 months
- January to June 2026 averaged over 490 Mcf/d in the township (KGS), a little under this page's 2025 figure; May and June were over 540
- A recent gas analysis (coalbed gas: nitrogen and CO2 content)
- Kansas Corporation Commission status of the idle Cherokee Wells wells nearby that could be returned to service
- KDHE Bureau of Air permit for the engines and Wilson County land-use review

Source: Kansas Geological Survey lease production data (reported to the state), Cherokee Wells LLC leases in T28S R15E, Wilson County, 2025 (196,459 Mcf over 365 days; 555 Mcf/d in 2024; 492 Mcf/d January to June 2026): https://www.kgs.ku.edu/PRS/Ora_Archive/gas_leases_2020_present.zip (seen 2026-11-13). This is an estimate from public data, not an offer: no cost and no obligation. The real price and terms are set in the gas and land agreements after a site review.
