Colt Energy gas wells, Township 33 South, Range 17 East, Montgomery County, Kansas: site sizing

What this gas could power, how much land it would take, and what it could earn each year.

2.8 MW	3	8 ac	209k
POWER FROM THE GAS	COMPUTE MODULES	LAND NEEDED	MMBTU BOUGHT / YR

GAS SALE, PER YEAR	LAND LEASE, PER YEAR	TOTAL TO THE OWNER, PER YEAR
up to $626k	$8k to $17k	$8k to $642k

YOUR SITE IN OUR LIVE 3D MODEL — ACCRETIONCOMPUTE.COM/SITE-MODEL?SRC=GAS&FLOW=0.58

THE MATH

Gas produced in the township, 2025 average	0.58 MMcf/d
Energy in the gas	25.1 MMBtu per hour
Power at a heat rate of 9,000 Btu/kWh	about 2.8 MW
Compute (power less cooling and losses, /1.2)	about 2.3 MW
Compute modules (about 1 MW each)	3
Gas engines (running plus one spare)	3 at 2.5 MW
Land: 5 acres plus 1.2 acres per MW	about 8 acres
Gas bought per year (95% run time)	209k MMBtu
Gas payment, up to $3.00/MMBtu	up to $626k
Land lease at $1,000 to $2,000 per acre per year	$8k to $17k

The volume is shown as reported to the state, as if it were pipeline-quality gas at 1,037 Btu per cubic foot; no public gas analysis was found, so the real energy content may differ. Prices in US dollars; the price band is the one shown on our Site model page.

WHAT IT WOULD LOOK LIKE

- Our own gas engines on a fenced parcel near the gas, a battery to smooth the load, and factory-built compute modules leased to an AI company.
- No grid connection and no export: all of the power is used on site.
- We build and run the site. The owner puts in no capital.
- Multi-year gas and land agreements, matched to the tenant's lease, at a fixed price.

WORTH CHECKING

- Gas volumes by gathering point for 12 to 24 months
- A recent gas analysis
- Idle wells near the site that could be returned to service
- KDHE air permit for the engines and Montgomery County land-use review

Source: Kansas Geological Survey lease production data (reported to the state), Colt Energy leases in T33S R17E, 2025 (212,191 Mcf over 365 days; 610 Mcf/d in 2024): https://www.kgs.ku.edu/PRS/Ora_Archive/gas_leases_2020_present.zip (seen 2026-11-12). This is an estimate from public data, not an offer: no cost and no obligation. The real price and terms are set in the gas and land agreements after a site review.
