# Chaveroo and Chaveroo NE fields, Chaves and Roosevelt counties, New Mexico: a first sizing

What this gas could power, how much land it would take, and what it could earn each year.

| 3.8 MW | 4 | 10 ac | 284k |
|---|---|---|---|
| POWER FROM THE GAS | COMPUTE MODULES | LAND NEEDED | MMBTU BOUGHT / YR |

| GAS SALE, PER YEAR | LAND LEASE, PER YEAR | TOTAL TO THE OWNER, PER YEAR |
|---|---|---|
| up to $213k | $10k to $19k | $10k to $232k |

## THE MATH

| | |
|---|---|
| Methane in 1.15 MMcf/d flared (low case) | 0.79 MMcf/d |
| Energy in the gas | 34.1 MMBtu per hour |
| Power at a heat rate of 9,000 Btu/kWh | about 3.8 MW |
| Compute (power less cooling and losses, /1.2) | about 3.2 MW |
| Compute modules (about 1 MW each) | 4 |
| Gas engines (running plus one spare) | 3 at 2.5 MW |
| Land: 5 acres plus 1.2 acres per MW | about 10 acres |
| Gas bought per year (95% run time) | 284k MMBtu |
| Gas payment, up to $0.75/MMBtu | up to $213k |
| Land lease at $1,000 to $2,000 per acre per year | $10k to $19k |

Methane only: 1.15 MMcf/d of flared gas at an assumed 70% methane, shown as 0.79 MMcf/d of pipeline-quality gas. Heavier gases are not counted. Prices in US dollars.

## WHAT IT WOULD LOOK LIKE

- Gas engines on a small parcel near the gas, a battery to smooth the load, and factory-built compute modules leased to an AI company.
- No grid connection and no export: all of the power is used on site.
- We build and run the site.
- Multi-year gas and land agreements, matched to the tenant's lease, at a fixed price.

### WORTH CHECKING

- Which battery flares the most, and its gas analysis
- The plan for the 98% capture rule at year end
- A small fenced parcel near that battery

**Source:** New Mexico OCD flaring data (C-115, 2026-11-06): 1.16 to 1.36 MMcf/d flared each month Jan-Aug 2026. Sized on 1.15 MMcf/d at an assumed 70% methane, counting the methane only. This is a first read from public data, not an offer: no cost and no obligation. The real price and terms are set in the gas and land agreements after a site review.
