Capital Oil & Gas wells near Snow Shoe, Centre County, Pennsylvania: site sizing

What this gas could power, how much land it would take, and what it could earn each year.

1.9 MW	2	7 ac	140k
POWER FROM THE GAS	COMPUTE MODULES	LAND NEEDED	MMBTU BOUGHT / YR

GAS SALE, PER YEAR	LAND LEASE, PER YEAR	TOTAL TO THE OWNER, PER YEAR
up to $421k	$7k to $14k	$7k to $435k

YOUR SITE IN OUR LIVE 3D MODEL — ACCRETIONCOMPUTE.COM/SITE-MODEL?SRC=GAS&FLOW=0.39

THE MATH

Gas produced by the wells within 5 km, 2025 average	0.39 MMcf/d
Energy in the gas	16.9 MMBtu per hour
Power at a heat rate of 9,000 Btu/kWh	about 1.9 MW
Compute (power less cooling and losses, /1.2)	about 1.6 MW
Compute modules (about 1 MW each)	2
Gas engines (running plus one spare)	2 at 2.5 MW
Land: 5 acres plus 1.2 acres per MW	about 7 acres
Gas bought per year (95% run time)	140k MMBtu
Gas payment, up to $3.00/MMBtu	up to $421k
Land lease at $1,000 to $2,000 per acre per year	$7k to $14k

The volume is shown as reported to the state, as if it were pipeline-quality gas at 1,037 Btu per cubic foot; no public gas analysis was found, so the real energy content may differ. Prices in US dollars; the price band is the one shown on our Site model page.

WHAT IT WOULD LOOK LIKE

- Our own gas engines on a fenced parcel near the gas, a battery to smooth the load, and factory-built compute modules leased to an AI company.
- No grid connection and no export: all of the power is used on site.
- We build and run the site. The owner puts in no capital.
- Multi-year gas and land agreements, matched to the tenant's lease, at a fixed price.

WORTH CHECKING

- Gas volumes and line pressure by meter for 12 to 24 months, and which wells are shut in since the sales line was abandoned
- A recent gas analysis (Btu, CO2, nitrogen)
- PA DEP air plan approval under 25 Pa. Code Chapter 127, or GP-5 general permit coverage, for the engines
- Snow Shoe Township zoning, and a parcel on private land next to the gathering line

Source: Pennsylvania DEP Oil and Gas Well Production Report, 2025 conventional period: Capital Oil & Gas wells within 5 km of 41.102 N, 77.835 W, about 393 Mcf/d in 2025 and 401 in 2024 (about 604 Mcf/d within 8 km): https://greenport.pa.gov/ReportExtracts/OG/OilGasWellProdReport (seen 2026-11-13). This is an estimate from public data, not an offer: no cost and no obligation. The real price and terms are set in the gas and land agreements after a site review.
