Snyder Brothers, western Pennsylvania: site sizing

What about 2.1 million cubic feet a day, bought at $3.00 per MMBtu at one or more of your gathering points, could power and earn each year: about 10 MW, at one site or spread across several smaller ones.

10.0 MW	9	17 ac	748k
POWER FROM THE GAS	COMPUTE MODULES	LAND NEEDED	MMBTU BOUGHT / YR

GAS SALE, PER YEAR	LAND LEASE, PER YEAR	TOTAL TO THE OWNER, PER YEAR
$2.24M	$17k to $34k	$2.26M to $2.28M

YOUR SITE IN OUR LIVE 3D MODEL — ACCRETIONCOMPUTE.COM/SITE-MODEL?SRC=GAS&FLOW=2.08

THE MATH

Gas bought at your meters or gathering points	2.08 MMcf/d
Energy in the gas	89.9 MMBtu per hour
Power at a heat rate of 9,000 Btu/kWh	about 10.0 MW
Compute (power less cooling and losses, /1.2)	about 8.3 MW
Compute modules (about 1 MW each)	9
Gas engines (running plus one spare)	5 at 2.5 MW
Land: 5 acres plus 1.2 acres per MW	about 17 acres
Gas bought per year (95% run time)	748k MMBtu
Gas payment, $3.00/MMBtu	$2.24M
Land lease at $1,000 to $2,000 per acre per year	$17k to $34k

Field gas at 1,037 Btu per cubic foot, engines at 9,000 Btu/kWh, 95% run time, gas at a flat $3.00 per MMBtu. US dollars.

WHAT IT WOULD LOOK LIKE

- Our own gas engines on a fenced parcel near the gas, a battery to smooth the load, and factory-built compute modules leased to an AI company.
- No grid connection and no export: all of the power is used on site.
- We build and run the site. The owner puts in no capital.
- Multi-year gas and land agreements, matched to the tenant's lease, at a fixed price.

WORTH CHECKING

- Which meters or gathering points could supply the gas, and the steady flow at each.
- One site, or several smaller ones run as one cluster under a single tenant lease.
- PA DEP GP-16 for the engines, the erosion and sediment permit, and township land use.

Source: Example at 10 MW and $3.00 per MMBtu, after our November 12 call. This is an estimate from public data, not an offer: no cost and no obligation. The real price and terms are set in the gas and land agreements after a site review.
