Sunnyview Landfill, Oshkosh, Wisconsin: site sizing

What the gas the site now flares could power, how much land it would take, and what it could earn each year.

1.1 MW	1	6 ac	102k
POWER FROM THE GAS	COMPUTE MODULES	LAND NEEDED	MMBTU BOUGHT / YR

GAS SALE, PER YEAR	LAND LEASE, PER YEAR	TOTAL TO THE OWNER, PER YEAR
up to $305k	$6k to $13k	$6k to $317k

YOUR SITE IN OUR LIVE 3D MODEL — ACCRETIONCOMPUTE.COM/SITE-MODEL?SRC=LFG&FLOW=380&CH4=52.7

THE MATH

Landfill gas today (estimate)	380 scfm
Methane content (2023)	52.7%
Energy in the gas	12.2 MMBtu per hour
Power at a heat rate of 11,000 Btu/kWh	about 1.1 MW
Compute (power less cooling and losses, /1.2)	about 0.9 MW
Compute modules (about 1 MW each)	1
Gas engines (running plus one spare)	2 at 1.6 MW
Land: 5 acres plus 1.2 acres per MW	about 6 acres
Gas bought per year (95% run time)	102k MMBtu
Gas payment, up to $3.00/MMBtu	up to $305k
Land lease at $1,000 to $2,000 per acre per year	$6k to $13k

Landfill gas: about 1,012 Btu per cubic foot of methane. Prices in US dollars; the price band is the one shown on our Site model page.

WHAT IT WOULD LOOK LIKE

- Our own gas engines on a fenced parcel near the gas, a battery to smooth the load, and factory-built compute modules leased to an AI company.
- No grid connection and no export: all of the power is used on site.
- We build and run the site. The owner puts in no capital.
- Multi-year gas and land agreements, matched to the tenant's lease, at a fixed price.

WORTH CHECKING

- Measured flow and methane today
- Whether the existing engine building and utility tie can be reused
- Wisconsin DNR air construction permit (NR 406) and closed-landfill review (NR 500)
- County or City of Oshkosh zoning, depending on the parcel

Source: EPA Greenhouse Gas Reporting Program, 2023 (facility 1007224): about 523 scfm at 52.7% methane, carried forward at about 10% a year to about 380 scfm today (estimate). This is an estimate from public data, not an offer: no cost and no obligation. The real price and terms are set in the gas and land agreements after a site review.
