Camelot Landfill, Lewisville, Texas: a first sizing

What the gas the site now flares could power, how much land it would take, and what it could earn each year.

7.9 MW	7	14 ac	720k
POWER FROM THE GAS	COMPUTE MODULES	LAND NEEDED	MMBTU BOUGHT / YR

GAS SALE, PER YEAR	LAND LEASE, PER YEAR	TOTAL TO THE OWNER, PER YEAR
up to $540k	$14k to $29k	$14k to $569k

YOUR SITE IN OUR LIVE 3D MODEL — ACCRETIONCOMPUTE.COM/SITE-MODEL?SRC=LFG&FLOW=2689&CH4=52.6

THE MATH

Landfill gas collected: engine plant plus flare (2023)	2,689 scfm
Methane content	52.6%
Energy in the gas	86.5 MMBtu per hour
Power at a heat rate of 11,000 Btu/kWh	about 7.9 MW
Compute (power less cooling and losses, /1.2)	about 6.6 MW
Compute modules (about 1 MW each)	7
Gas engines (running plus one spare)	6 at 1.6 MW
Land: 5 acres plus 1.2 acres per MW	about 14 acres
Gas bought per year (95% run time)	720k MMBtu
Gas payment, up to $0.75/MMBtu	up to $540k
Land lease at $1,000 to $2,000 per acre per year	$14k to $29k

Landfill gas: about 1,012 Btu per cubic foot of methane. Prices in US dollars; the price band is the one shown on our Site model page.

WHAT IT WOULD LOOK LIKE

- Gas engines on a small parcel near the gas, a battery to smooth the load, and factory-built compute modules leased to an AI company.
- No grid connection and no export: all of the power is used on site.
- We build and run the site. The owner puts in no capital.
- Multi-year gas and land agreements, matched to the tenant's lease, at a fixed price.

WORTH CHECKING

- Texas data-center permit pause through mid-December 2026
- TCEQ air authorization under 30 TAC Chapter 116 for restarted or new engines
- Tie-in under the landfill's federal operating permit, NSPS Subpart XXX and NESHAP Subpart AAAA; TCEQ MSW permit review
- City of Lewisville special use permit; whether WM leaves its engines and grid tie when the month-to-month agreement ends

Source: EPA Greenhouse Gas Reporting Program, 2023 (facility 1007780): about 2,689 scfm collected at 52.6% methane. City of Farmers Branch 2025 RFP: about 1,700 scfm flared beyond WM's 3.2 MW engine plant; Resolution R2025-242 put the gas agreement on a month-to-month term. This is a first read from public data, not an offer: no cost and no obligation. The real price and terms are set in the gas and land agreements after a site review.
